

## Couple's trip in goaht

Get the ultimate nature experience and relax far away from the chores of everyday life. This fabric goahti is located just above the shoreline on the south side (Innerenden) of the island, with views to "Kjæsklubben" and south and west side of the Porsangerfjord. Experience wilderness camping with a luxurious twist. Choose to stay for one or several nights with possibility to combine the cabin in Kobbevika or Hellemolla on the north side of the island, and the goahti on the south side. If you wish to order breakfast and/or dinner, it will be served in the old berry shed next to the goahti.

The south end

Right by the seaside

The RIB rafting trip departs from Repvåg at 6pm and will take about 15 minutes. Olaf will meet you at the old ferry pier and provide you with floatation suits and life vests, and then take you to the island. If you need a parking space for your car, we have free and available spots along the fence of the big blue house with an adjacent red barn.

When you arrive at the island, we will provide you with further information about your stay over tea and coffee. The goahti are situated right by the water on wooden platform and are well- equipped for your stay. The only things you need to bring are clothes and food.

The south end.

Nice view from inside.

Cozy time

### Things to do during your stay

Visit the highest point of the island: “Peileren” is our name for the highest hill, which the Germans during WWII used as a radio communications station. You can still see some of the remains from when 200 German soldiers were deployed in this very area.

Walk along the shoreline to Kobbevika: visit idyllic Kobbevika and gather all the wild chives you could ever want.

Walk along the shoreline to Hellemolla: see the rock formations and witness the most beautiful sunset our island can offer. If you’re lucky, you’ll even be able to catch a glimpse of the shy seals who enjoy laying on the Roches.

Bird watching experience the birdlife up close. Our island is the home to many species, but the most populous ones are the seabirds. Throughout history, this has been a place of interest for ornithologists and zoologists.

### Choose between 4 options

#### Option 1

spend one-night total price per person: NOK 2775.

#### Option 2

Spend two nights –total price per person: NOK 3925
